

DISS-CO

Vendor Due Diligence Made Easy!

The unique AI powered

SMART INTEGRITY PLATFORM

Challenge: To align with the requirements of critical regulations such as the German Supply Chain Act, the EU Corporate Sustainability Due Diligence Directive (CSDDD), the UK Modern Slavery Act, and additional pertinent laws, obligated entities are tasked with establishing a robust reporting mechanism for grievances within their supply chain. This involves a comprehensive evaluation of supplier-related risks and the proactive implementation of preventive strategies to mitigate these concerns effectively.

Our Smart Integrity Platform offers

Maximum security and intangibility through blockchain technology

AI based efficiency for risk assessment, risk management and prevention

Unique features developed by compliance and IT forensics experts

DISS-CO's Smart Integrity Platform harnesses cutting-edge AI to parse and assess data from global sources, including news, articles, databases, and social media. It identifies potential risks and compliance issues in areas such as human rights, environmental duties, and fraud, streamlining the process of risk management and ethical compliance for organizations.
